

Safety Data Sheet

BIOBOR® JF

Fuel Additives, Inc.

Section 1: Identification of the Substance/Mixture and of the Company/Undertaking

1.1 Product identifier

Product Name • Biobor® JF

• EPA REG. NO. 65217-1.

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified use(s) • Biocide

1.3 Details of the supplier of the safety data sheet

Manufacturer

• Hammonds Fuel Additives, Inc.

6951 W Little York Rd

Houston, TX 77040

United States

www.biobor.com

sales@biobor.com

Telephone (General) • (800) 548-9166

1.4 Emergency telephone number

Manufacturer

ChemTel

Manufacturer

Within United States; Canada; Puerto Rico; US Virgin Islands: 1-800-255-3924 Outside North America: +1-813-248-0585 (Collect calls accepted)

Section 2: Hazards Identification

EU/EEC

According to: Regulation (EC) No 1272/2008 (CLP)/REACH 1907/2006 [amended by 453/2010] According to: EU Directive 67/548/EEC (DSD) or 1999/45/EC (DPD)

2.1 Classification of the substance or mixture

CLP

- Flammable Liquids 3 - H226
- Serious Eye Damage 1 - H318

DSD/DPD

- Flammable
- Irritant (Xi)
- R10, R41

2.2 Label Elements

CLP

DANGER

- H226 - Flammable liquid and vapour
- H318 - Causes serious eye damage

Precautionary statements

2.2 Label elements

2.1 Classification of the substance or mixture

- OSHA HCS 2012
Flammable Liquids 3
Serious Eye Damage 1

DANGER

- **Hazard statements**
Flammable liquid and vapour
Causes serious eye damage

Precautionary statements

- **Prevention**
Keep away from heat, sparks, open flames and/or hot surfaces. - No smoking.
Keep container tightly closed.
Ground and/or bond container and receiving equipment.
Use explosion-proof electrical/ventilating/lighting/equipment.
Use only non-sparking tools.
Take precautionary measures against static discharge.
Wear protective gloves/protective clothing/eye protection/face protection.
- **Response**
In case of fire: Use appropriate media for extinction.
IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with

United States (US)

According to: OSHA 29 CFR 1910.1200 HCS

2.3 Other Hazards

DSD/PPD

- According to Regulation (EC) No. 1272/2008 (CLP) this material is considered hazardous.
- According to European Directive 1999/45/EC this material is considered dangerous.

CLP

- **Risk phrases**
R10 - Flammable.
R41 - Risk of serious damage to eyes.
- **Safety phrases**
S26 - In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S39 - Wear eye/face protection.

DSD/PPD

- **Storage/Disposal**
P403+P235 - Store in a well-ventilated place. Keep cool.
P501 - Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
- **Response**
P270+P378 - In case of fire: Use appropriate media for extinction.
P303+P361+P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310 - Immediately call a POISON CENTER or doctor/physician.
- **Prevention**
P210 - Keep away from heat, sparks, open flames and/or hot surfaces. - No smoking.
P223 - Keep container tightly closed.
P240 - Ground and/or bond container and receiving equipment.
P241 - Use explosion-proof electrical/ventilating/lighting/equipment.
P242 - Use only non-sparking tools.
P243 - Take precautionary measures against static discharge.
P280 - Wear protective gloves/protective clothing/eye protection/face protection.

- 2.3 Other hazards** OSHA HCS 2012
- Under United States Regulations (29 CFR 1910.1200 - Hazard Communication Standard), this product is considered hazardous.
- Storage/Disposal**
- water/shower.
 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
 - Immediately call a POISON CENTER or doctor/physician.
 - Store in a well-ventilated place. Keep cool.
 - Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Canada
According to: WHMIS

2.1 Classification of the substance or mixture
WHMIS

- Combustible Liquids - B3
- Corrosive - E

- Combustible Liquids - B3
- Corrosive - E

2.3 Other hazards
WHMIS

- In Canada, the product mentioned above is considered hazardous under the Workplace Hazardous Materials Information System (WHMIS).

Section 3 - Composition/Information on Ingredients

3.1 Substances

- Material does not meet the criteria of a substance.

3.2 Mixtures

Chemical Name	Identifiers	%	LD50/LC50	Classifications According to Regulation/Directive	Comments
2,2' - (1-methyltrimethylenedioxy) bis - (4-methyl-1, 3, 2-dioxaborinane)	CAS:2665-13-6 EC Number:220-198-4	0% TO 95%	NDA	EU DSD/PPD: Not Classified EU CLP: Not Classified OSHA HCS 2012: Not Classified	NDA
2,2' - oxybis (4, 4, 6 - trimethyl-1, 3, 2-dioxaborinane)	CAS:14697-50-8 EC Number:238-749-2	0% TO 95%	NDA	EU DSD/PPD: Not Classified EU CLP: Not Classified OSHA HCS 2012: Not Classified	NDA

See Section 16 for full text of H-statements and R-phrases.

Section 4 - First Aid Measures

4.1 Description of first aid measures

Inhalation

- Move victim to fresh air. Administer oxygen if breathing is difficult. Give artificial respiration if victim is not breathing. Get medical attention if symptoms occur.

Skin

- In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Remove and isolate contaminated clothing. Wash skin with soap and water. If irritation develops and persists, get medical attention.

Eye

- In case of contact with substance, immediately flush eyes with running water for at least 20 minutes. If eye irritation persists: Get medical advice/attention.
- Immediately induce vomiting, as directed by medical personnel. Obtain medical attention immediately if ingested.

Ingestion

4.2 Most important symptoms and effects, both acute and delayed

- Refer to Section 11 - Toxicological Information.

4.3 Indication of any immediate medical attention and special treatment needed

Notes to Physician

- All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

Section 5 - Firefighting Measures

5.1 Extinguishing media

- **Suitable Extinguishing Media**: LARGE FIRES: Water spray, fog or alcohol-resistant foam. SMALL FIRES: Dry chemical, CO₂, water spray or alcohol-resistant foam.
- **Unsuitable Extinguishing Media**: Do not use straight water stream.

5.2 Special hazards arising from the substance or mixture

Unusual Fire and Explosion Hazards

- Containers may explode when heated.
- Vapor explosion hazard indoors, outdoors or in sewers.
- HIGHLY FLAMMABLE: Will be easily ignited by heat, sparks or flames.
- Many liquids are lighter than water.
- Most vapors are heavier than air. They will spread along ground and collect in low or confined areas (sewers, basements, tanks).
- Runoff to sewer may create fire or explosion hazard.
- Vapors may form explosive mixtures with air.

Hazardous Combustion Products

- Vapors may travel to source of ignition and flash back.
- Smoke, soot, and toxic/irritating fumes (i.e., carbon dioxide, carbon monoxide, etc.)

5.3 Advice for firefighters

- Structural firefighters' protective clothing will only provide limited protection.
- Wear positive pressure self-contained breathing apparatus (SCBA).
- Move containers from fire area if you can do it without risk.
- LARGE FIRES: Cool containers with flooding quantities of water until well after fire is out.

Section 6 - Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

- Ventilate enclosed areas. Do not walk through spilled material. Wear appropriate personal protective equipment, avoid direct contact. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.
- As an immediate precautionary measure, isolate spill or leak area for at least 50 meters (150 feet) in all directions. If tank, rail car or tank truck is involved in a fire, ISOLATE for 800 meters (1/2 mile) in all directions; also, consider initial evacuation for 800 meters (1/2 mile) in all directions. LARGE SPILL: Consider initial downwind evacuation for at least 300 meters (1000 feet) ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Keep out of low areas. away.

6.2 Environmental precautions

- Prevent entry into waterways, sewers, basements or confined areas.

6.3 Methods and material for containment and cleaning up

- Stop leak if you can do it without risk.
- Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers.
- Use clean non-sparking tools to collect absorbed material.
- A vapor suppressing foam may be used to reduce vapors.
- All equipment used when handling the product must be grounded.
- LARGE SPILLS: Dike far ahead of liquid spill for later disposal.
- LARGE SPILLS: Water spray may reduce vapor; but may not prevent ignition in closed spaces.

6.4 Reference to other sections

- Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

Section 7 - Handling and Storage

7.1 Precautions for safe handling

- Use only in well ventilated areas. Avoid contact with heat and ignition sources. Do not use sparking tools. Take precautionary measures against static charges. All equipment used when handling the product must be grounded. The container is hazardous when empty. Do not use heat, sparks, open flames, torches, cigarettes or near empty container. Do not reuse empty container without professional cleaning for food, clothing, or products for human or animal consumption or where skin contact can occur. Wear appropriate protective equipment, avoid direct contact. Avoid breathing mist, vapours and/or spray. Avoid contact with skin, eyes, and clothing. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. If container is warm, open bung slowly to release internal pressure.

7.2 Conditions for safe storage, including any incompatibilities

- Keep container tightly closed. Store in a cool/low-temperature, well-ventilated dry place away from heat and ignition sources. Protect from direct sunlight. WARNING:

7.3 Specific end use(s)

Hot organic chemical vapors or mists can suddenly, and without warning, combust when mixed with air. Ignition can occur at typical elevated temperature process conditions. Any use in such processes should be evaluated thoroughly to assure safe operating conditions.

- Refer to Section 1.2 - Relevant identified uses.

Section 8 - Exposure Controls/Personal Protection

8.1 Control parameters

Exposure Limits/Guidelines				
Result	ACGIH	NIOSH	OSHA	
				Naphtna (64742-89-8)
	Not established	100 ppm TWA; 400 mg/m ³ TWA	100 ppm TWA; 400 mg/m ³ TWA	
				TWAs

8.2 Exposure controls

Engineering Measures/Controls

- Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Use explosion-proof electrical/ventilating/lighting/equipment.
- In case of insufficient ventilation, wear suitable respiratory equipment. Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or symptoms are experienced.
- Wear chemical splash safety goggles.
- Wear appropriate gloves. Wear long sleeves and/or protective coveralls.
- Controls should be engineered to prevent release to the environment, including procedures to prevent spills, atmospheric release and release to waterways. Follow best practice for site management and disposal of waste.

Key to abbreviations

ACGIH = American Conference of Governmental Industrial Hygiene

NIOSH = National Institute of Occupational Safety and Health

OSHA = Occupational Safety and Health Administration

TWA = Time-Weighted Averages are based on 8h/day, 40h/week exposures

Section 9 - Physical and Chemical Properties

9.1 Information on Physical and Chemical Properties

Material Description			
Physical Form	Liquid	Appearance/Description	Yellow liquid with aromatic odor.
Color	Yellow	Odor	Aromatic
Odor Threshold	Data lacking		
General Properties			
Boiling Point	529 F (276.1111 C)	Melting Point/Freezing Point	Data lacking
Decomposition Temperature	Data lacking	pH	Data lacking

Specific Gravity/Relative Density	= 1.05 Water=1	Water Solubility	Moderately soluble
Viscosity	Data lacking	Explosive Properties	Data lacking
Oxidizing Properties:	Data lacking		
Volatility			
Vapor Pressure	Data lacking	Vapor Density	> 1 Air=1
Evaporation Rate	< 1 n-Butyl Acetate = 1		
Flammability			
Flash Point	102 F (38,888 C) TCC (Tagliabue Closed Cup)	UEL	Data lacking
LEL	Data lacking	Autoignition	Data lacking
Flammability (solid, gas)	Data lacking		
Environmental			
Octanol/Water Partition coefficient	Data lacking		

9.2 Other Information

- No additional physical and chemical parameters noted.

Section 10: Stability and Reactivity

10.1 Reactivity

- No dangerous reaction known under conditions of normal use.

10.2 Chemical stability

- Stable under normal temperatures and pressures.

10.3 Possibility of hazardous reactions

- Hazardous polymerization will not occur.

10.4 Conditions to avoid

- Excess heat, sparks, open flame.

10.5 Incompatible materials

- Water. Oxidizers.

10.6 Hazardous decomposition products

- No data available

Section 11 - Toxicological Information

11.1 Information on toxicological effects

Components	
Acute Toxicity: Ingestion/Rat LD50 • >5 g/kg; Ingestion/Oral-Woman TDLo • 20 mL/kg; Lungs, Thorax, or Vomiting; Ingestion/Oral-Rat LD50 • >3 g/kg; Ingestion/Oral-Woman TDLo • 20 mL/kg; Lungs, Thorax, or Vomiting; Ingestion/Oral-Woman TDLo • 20 mL/kg; Behavior; Somnolence (general depressed activity); Lungs, Thorax, or Respiration; Consolidation; Gastrointestinal; Nausea or vomiting; Skin-Rabbit LD50 • >3 g/kg; Sense Organs and Special Senses; Eye: Other; Behavior; Food intake (animal); Irritation: Eye-Rabbit • 100 µL • Mild irritation; Skin-Rabbit • 500 µL • Moderate irritation; Tumorigen / Carcinogen: Skin-Mouse TDLo • 330 g/kg 88 Week(s)-Intermittent; Tumorigenic by RTECS criteria; Skin and Appendages: Other; Tumors	Naptha 64742-89-8 (4.5%)

Potential Health Effects

- Inhalation**
- Acute (Immediate) May cause irritation.
 - Chronic (Delayed) No data available.
- Skin**
- Acute (Immediate) May cause slight to mild irritation.
 - Chronic (Delayed) Prolonged or repeated contact may dry the skin and lead to irritation (i.e. dermatitis)
- Eye**
- Acute (Immediate) Causes serious eye damage.
 - Chronic (Delayed) No data available.
- Ingestion**
- Acute (Immediate) May cause nausea, vomiting, pain and stomach upset (e.g., diarrhea)
 - Chronic (Delayed) No data available.
- Carcinogenic Effects**
- This material does contain a component that may cause cancer, however based on regulatory criteria this material is not classified as a carcinogen.

Carcinogenic Effects			
	CAS	IARC	NTP

Key to abbreviations
LD = Lethal Dose
TD = Toxic Dose

Section 12 - Ecological Information

12.1 Toxicity

- No data is available on this product.

12.2 Persistence and degradability

- No data is available on this product.

12.3 Bioaccumulative potential

- No data is available on this product.

12.4 Mobility in Soil

- No data is available on this product.

12.5 Results of PBT and VPB assessment

- No PBT and VPB assessment has been conducted.

12.6 Other adverse effects

- No studies have been found.

Section 13 - Disposal Considerations

13.1 Waste treatment methods

- **Product waste**
Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
- **Packaging waste**
Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
